Warrant Out for 8. L. Stryker of Kinloch School in County on Complaint of 10-Year-Old Boy's

A warrant was issued in Clayton yester-lay by Justice Frank L. Stobie against S. L. Stryker, principal of the Kinloch ichool, charging him with assaulting larence Hoover, a 10-year-old pupil, un-ter his charge.

Clarence Hoover, a 10-year-old pupil, under his charge.

Stryker has not been arrested.

Charges have also been filed with Superintendent Andrae against Stryker in regard to the affair by the boy's mother, but they will not be heard until after the case in Stobie's court is settled.

The alleged assault occurred last Monday, when the boy was punished by his principal for an alleged infraction of the rules. His mother took him to Clayton yesterday and showed him to Andrae, who found several evidences of the punishment.

Stryker declares that Clarence was s'amming the tops of inkwells in the schoolroom in a way calculated to affect the discipline of the room and that he was punished for that reason.

The Kinloch principal is said to be one of the most learned pedagogues in St. Louis County. He had trouble six years ago in the Allenton School where he was teaching, over a somewhat similar incident, and was absent from the county for several years as a result, it is said.

ZINC MEN OF JOPLIN WILL ARGUE CANADIAN ORE DUTY

Delegation Arrives in Washington Will Push Matter Before Secretary Shaw To-Bay.

Wyatt Building, 16th and F Streets Wyatt Building, left and 7 Streets.

Washington, Sept. 29.—John R. Holmer,
W. R. Catikins and S. D. Mitchell, prominent mining men of the Joplin, Mo. district, arrived in Washington to-day to renew their efforts to secure a ruling by the Customs Division of the Treasury Department which would place a duty on gine that is imported into the United States under the guise of lead-bearing ore. A hearing was scheduled for to-day, but the Joplin men were late in arriving and the matter will be taken up by Secretary Shaw to-morrow. the Jopiin men were late in arriving and the matter will be taken up by Secretary Shaw to-morrow. The zine-producing interests are in-volved in a vigorous fight against the smelting interests over this proposition. About six weeks ago the mining men had a first hearing at the Treasury Depart-ment.

At that time Secretary Shaw stated

ment.

At that time Secretary Shaw stated that the plea of the miners was a just one, and would be met by the department by a ruling in their favor. Later representatives of the smelters were heard, and it is now believed that the Secretary has changed by rosition.

sentatives of the smelters were heard, and it is now believed that the Secretary has changed his position.

The mining interests asked for another hearing, and Messes, Caulkins, Holmes and Mitchell are now here to again urge their case.

A large zine-mining industry is developing in Eritish Columbia. As the customs regulations now stand, ore containing a small percentage of lead and a high percentage of zine can be imported, and it will pay duty on the lead only.

It makes no difference if the percentage of lead snall not be a commercial quantity. The zine escapes the tariff tax.

Estimates have it that the production of the British Columbia district will soon reach 2000 tons a week, which would be about two-fifths of the output of the Joplin district, as this latter now averages 5,000 tons a week.

The Missouri producers fear that the addition of 2,000 tons a week to the zine market would smash prices and hurt them exceedingly. Accordingly, they are sparing no effort to obtain action favoring them at the hands of Secretary Shaw.

HUNTSVILLE NEARLY DOUBLES POPULATION IN FIVE YEARS.

discourt Town Increases From 1.803 to 3.085 Since Government Census relat Interests Booming. REPUBLIC SPECIAL

Huntsville, Mo., Sept. 20.—Since the taking of the Government census in 1800 to the population of this city has increased from 1.805 to 3.605, and was rated a city of

the third-class at a special election the latter part of May.

The personal and real estate property has increased from \$22,875, assessed valuation in 1992, to \$900,000. The increase is due largely to the opening of large coal mines near the town by the Randolph & Macon Company, which owns \$0,000 acres of coal land in this county. It also operates a large general merchandise store in connection with the coal plants near the town. The Flemming Rake and Stacker Com

town.

The Flemming Rake and Stacker Company has a large manufacturing plant here, that has doubled its capacity in the last three or four years, giving employment to twice the number of men. These, with a number of smaller enterprises that have started, bespeak a permanent and steady growth of the city.

The corporate limits of the town have been extended, and new additions added, in which 200 new residences have been built. Several new business houses have been exected, and others are in course of construction. An electric-light plant has been installed. Between five and six miles of macadam streets have been constructed in the last year, and three blocks of paving is now being put in on Main street. The total cost of street improvements alone has been £5,000. The citizens are now agitating waterworks, and it is expected that a plant will be installed in the near future.

George Meller of Chicago Carriage Workers' Union Says in Court He Was Involved in a Criminal Conspiracy.

Chicago, Sept. 29.—With sensational suddenness to-day President George Meller of Carriage and Wagon Workers' Union No. 4, who is being tried with twelve other union officials and members on a charge of criminal conspiracy, withdrew a plea of not guilty to-day and entered a plea of guilty.

Meiler, it is alleged, was one of the instigators of a system of "slugging" practiced on nonunion workmen.

Counsel for the other defendants were thrown into commotion by Meller's change of front. They met the situation, however, with a charge that Meller was a paid spy in the employment of the Carriage and Wagon Manufacturers' Association.

Meller is expected to take the witness stand against his fellow-defendants.
